

Terrace tile NF 40 mm

Product Code: NF40

Net Price: £64.45 / m²

Gross price: **£76.70 / m²**

characteristic

properties

- pleasant, elastic feel when walking, just like on forest floor
- sustains garden furniture, high heels, gym equipment, etc.
- absorbs sound and vibrations
- particularly robust, can be used with limited car traffic
- optimal ball rebound (basketball, football, handball)
- water-permeable and quick to dry; tile underside facilitates drainage
- heat- and cold-insulating; fall-attenuating
- weather- and frostproof, uv-resistant, resistant to chlorine water
- slip-resistant in wet and dry conditions
- easy to maintain, self-cleaning (with rainwater)
- reusable, very economical
- odourless; for indoor and outdoor use

installation

- on a [bound subfloor](#) (e.g. concrete, asphalt, tiles, composite panels, roof foil or felt)
- on an [unbound subfloor](#) (compacted grit or gravel)
- closed joints through the vertical tongue and groove system, placed in the tile rebated edges
- During installation, the tiles with the tongue and groove connection from the NF series should be glued in the corners with [polyurethane adhesive](#)
- do-it-yourself or hire a local handyman
