

Freight tariffs for the United Kingdom

Most of our products are **manufactured in Germany** and delivered by carrier from there to any place in the world. Shipping costs are determined by the weight of a shipment and two first letters/digits of the destination's postal code (in case of Ireland - by the county). Please note that if you choose a wrong delivery zone in a shopping basket (different from the delivery address), we will not accept the purchase. Instead, we will send you an order confirmation with the correct delivery zone.

If your country or your postcode is not listed below, send an e-mail to **info@warco.de** to get an individual quotation. Freight tariffs for German and French-speaking countries are available at German and French WARCO shops.

This shop accepts orders with delivery to the UK, Ireland, Norway, Poland and Sweden. If you wish to place an order with the delivery to another country, send an e-mail to info@warco.de with order details.

All prices listed below are in euro (€), except Great Britain (£). All prices **include 19% VAT** (net prices only for Norway, without the German VAT).
